

## ***Landscape Plants for Shade, Color & Wildlife***

**Sat., Feb. 13, 1:30 – 4 p.m., Mesa Main Library, 64 E 1<sup>st</sup> Street**

The Environmental & Sustainability Division and City of Mesa Library are presenting a free monthly workshop series featuring earth-friendly advice for your home and garden. Join us on **Saturday, February 13 with Master Gardener, Greg Morris**, for great plant selection ideas for your landscape.

No registration is necessary. Call (480) 644-4400 for more information .

### **Course Description**

Wondering what landscape plants hold up to our tough Arizona desert conditions? Attend this program and learn how to select plants that will create beautiful, water-efficient, and functional landscapes that can also cool our surroundings with shade and lushness. Learn the best wildlife attracting plants to grow and how to achieve year-round color. Planting and maintenance techniques will also be discussed.

### **Speaker Bio**

**GREG MORRIS** is a Master Gardener, Horticulturist and a Certified Professional Landscape Designer with 20 years experience. His focus has been on sustainable landscape techniques including practices such as green roofs, living walls, subsurface irrigation, SMART controllers, pervious pavement, rainwater harvesting, rain gardens, artificial turf, native plants, wildlife habitat and use of renewable materials.

Greg is also a Certified Sustainable Landscape Designer, a Certified Landscape Irrigation Auditor, a Rainwater Catchment Accredited Professional and a Certified Pervious Pavement Technician. He is currently a principal at LAND FX Design Group, Inc. and president of the Association of Professional Landscape Designers - Phoenix District.
